### ABOUT CHRISTIAN J WILLIAMS

Christian J Williams is a creative based in Los Angeles, California who specializes in the automotive/ outdoor adventure space. It might be obvious that he likes cars and adventure.

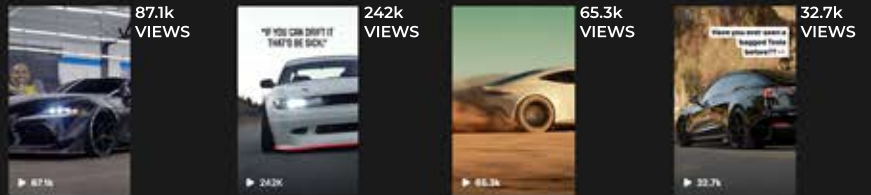

Growing up in the epicenter of diversity that is Los Angeles, exploration has always been a part of who Christian is. From bombing hills on his bike through DTLA traffic, cruising the canyons in his project car, mountain biking the Santa Monica Mountains, to backpacking the Angeles National Forest, his work is a glimpse into his hobbies. Adventure derived from outdoor activities inspires him.

After freelancing photography throughout college and working various other side hustles, he made it a priority to pursue his creative vision full time. Nowadays if he is not shooting photos for work or fun, you can find him riding his bike or working on his car.
